

It's about the Onehunga EAST-WEST LINK INTERCHANGE, so it's about you!

**NZTA
Complicated
Plan**

**Efficient
Community
Plan**

We are losing the battle with NZTA
We need your support!

We are launching a community connections plan. The Community Plan is an alternative East West Link designed to the current NZTA preferred plan. Manukau Harbour Restoration Society, Aotea Scouts, OBA, TOES and many others support the community plan and we are seeking the support and input from local businesses and residents to stop the Aotea Scouts, Onehunga Port, Manukau Harbour and Onehunga Foreshore from being cut off from future use and development.

NZTA may not think the highly efficient community plan is worthy of further consideration but the question is do you agree? Community groups and many others have drafted their own Option X style Community Plan and are holding a community meeting to launch the plan, get local feedback and gather support from you. The event is on 14th of November at Onehunga RSA. If you don't come to the event we can all sleep walk into another NZTA design disaster.

For further information see www.toes.org.nz and www.savethebasin.org.nz

This is your community so have your say...

Come along and be informed and ask your questions

Monday 14th November, 6.30pm at Onehunga RSA

If you are interested in providing feedback to the Council we will have people there to help.

LET'S DO IT RIGHT ONEHUNGA!

RSVP: Email info@toes.org.nz
